

The Pedigree and Progeny Screens

The Pedigree Screen

Viewing the pedigree of another dog.

Double click on any dog's name to view the pedigree of that dog. Click the "Previous" button to return to the previous dog.

Inputting data from the pedigree screen.

With the cursor on the correct pedigree location, start typing the desired name. Proceed in the identical manner used for the main input screen. When the input of the name is complete the cursor will move to the next empty pedigree location.

Deleting sires and dams

With the cursor on the correct pedigree location, click the delete button or right click the name to be deleted. Select delete and confirm the query. The link to the selected sire or dam will be removed. This does not remove the actual dog but only eliminates the link in the pedigree.

Returning to the main screen.

Hitting the ESC button or clicking the "Done" button will return to the main screen with the original dog selected. Clicking "Use Current" will return with the current dog as the selected dog.

The Progeny Screen

The screenshot shows a software window titled "Progeny" for "Wandersee's High Q Windcrest". It features a table with columns for Sire for, Sex, Prog, Dam's Name, DOB, GD1, GD2, and GD3. The "Sire for" column is highlighted, and the first row, "Apricot Brandy", is selected. Above the table are buttons for "Use Original (ESC)", "Use Current", "Previous", and "Done". Below the table are buttons for "Common Sire" and "Common Dam".

Sire for	Sex	Prog	Dam's Name	DOB	GD1	GD2	GD3
▶ Apricot Brandy	F		Wandersee Brandy	11/9/1986

O'Leary Deary's Pyro Gyro	M		Wandersee's Colorado	11/4/1987			
Otiscito	M	23	Wandersee Fair Pinky	3/9/1989			

Viewing the progeny of another dog.

Double click on any dog's name to view the progeny of that dog. This will move forward in time and display the next generation. Click the "Previous" button to return to the previous dog.

Viewing dogs with a common sire or common dam.

Clicking the "Common Sire" or "Common Dam" button will display a list of dogs that have the same sire or dam as the current dog. This will move back in time and show the previous generation. The current dog will appear in the progeny list with the sire or dam now listed as the current dog.

Selecting a dog and immediately returning to the main screen.

Right clicking any dog's name on the list will immediately return to the main screen with the selected dog as the current dog.

Returning to the main screen.

Hitting the ESC button or clicking the "Done" button will return to the main screen with the original dog selected. Clicking "Use Current" will return with the current dog as the selected dog.
